Dear Ivor,

Working out "White Christmas" & making some recordings. Will have demo tape - 5 min or so in a week.

Ratios of 17 - I get a tingling in my spine from them - have made preliminary exploration of 17, 19, 21, & 23

Is The name leading tone a just 135/128? I'm getting to appreciate Pythagorean ratios better as I've mentioned. Will contrast 25/24 vs 135/128 in context (5/4 -> 6/5 vs 5/4 -> 32/30)
