Hello Ivor;

Received the photographs which you mailed. Thanks ever so much. I am now on an enforced vacation, by that, I mean I've been laid off. Winter weather has set in here in earnest, and to some extend this vacation suits me just fine

Being located out in the country as I am, there is plenty of time for hunting. I noticed that there are quite a few tracks of Bohemian rabbits in my rear half acre. I's been said that Italians consider them a delicacy, but I've never tried them. There are a few deer around also. The four legged kind.

Anna can explain about Bohemian rabbits How are you getting along with your lectures? Good luck.

I suppose you are still writing. Perhaps some day you may hit the jackpot.

I may visit again in Los Angeles.
Possibly next year sometime in the early
months. Thanks again for the pictures

Yours.

Fred Graham
